# 1. Introduction

## 1.1 National Roads Allocations and the NDP

This preamble describes the matters considered for “The 2024 Grant Allocations to Local Authorities for National Roads, Active Travel and Greenways” (the “Allocations”). The Allocations are made by Transport Infrastructure (TII) having regard to the priorities set out in the National Development Plan 2021-2030 (the “NDP”), the objectives of the Climate Action Plan 2023, other national policies, and the terms and conditions set by the Minister for Transport (the “Minister”) pursuant to the Roads Acts 1993 to 2015.

TII is focussed on delivering its statutory duty to secure a safe and efficient network of national roads having regard to the needs of all users. TII is also responsible for overseeing the delivery of a programme of national and regional greenways as Sanctioning Authority, pursuant to an agreement between the Minister and the Board of TII.

TII supplements Exchequer Grants through income received from public tolling on the M50 and through revenue share arrangements from PPP’s.

The Minister has notified TII that the Exchequer Capital Allocation for national roads for 2024 will be €265.16 million for Asset Protection and Renewal. An Exchequer Current Allocation is being provided for national roads maintenance of €32.85 million. A separate Exchequer Capital Allocation is being provided for Greenways of €68 million for capital projects and €5m for asset renewal of existing Greenways.

The indicative Exchequer Capital Allocation for New Roads Improvements in 2024, notified by the Minister to TII, is approximately €146.64 million.

The amount of the Exchequer Capital Allocation for any given year of the NDP is a key factor in determining the timing of delivery and rate of progress of national roads and greenways programmes and projects.

## 1.2 Statutory Arrangements for Allocations

Further to the general duty of TII to secure the provision of a safe and efficient network of national roads, Section 19 (2) of the Roads Act requires that TII shall, as far as possible, arrange that its functions (including prepare, or arrange for the preparation of, design for construction or improvement works or securing the carrying out of construction works) shall be performed on its behalf by the relevant road authority (i.e., the relevant Local Authority). Therefore, TII provides allocations to Local Authorities on an annual basis, so they can deliver on their road authority functions on behalf of TII in relation to national roads. If for any reason it is not possible to deliver on a particular project or for TII to approve the progression of a project, TII can, and does, reallocate part or all the relevant funding to other national roads and greenway programmes, projects, or operations, during the year in question.

## 1.3 Terms and Conditions Set by the Minister

Under section 24 of the Roads Act, the Minister sets terms and conditions in relation to grants from moneys provided by the Oireachtas towards national roads capital projects and current expenditure

of TII. The amounts of the 2024 Exchequer Capital and Current Grants for national roads, and conditions were issued to TII on 31<sup>st</sup> January and are summarised below.

The Exchequer Capital Allocation for Capital projects is based on the following prioritisation:

1. Maintenance of existing national roads assets, helping to keep them to a safe and robust standard;
2. Progression of projects currently under construction and those close to construction;
3. Progression of the major projects at pre-Approval Gate 2 in the Infrastructure Guidelines,
4. For projects further back in the development pipeline, i.e., pre-Approval Gate 1 in the Infrastructure Guidelines, the focus of the remaining funding should be on progressing by-passes and other projects that will contribute to supporting the National Planning Framework's national strategic outcome NSO 1: Compact Growth and achieving the objectives of Government's "Town Centre First" policy.

### **1.3.1 New Roads**

In relation to New Roads, the Exchequer Capital Grant of €146.64 million to be provided to TII for 2024 is subject to the condition that this funding is allocated toward those projects listed by the Minister in the Appendix to the grant allocations letter. These schemes as set out in this Appendix are listed below:

#### Construction and Closeout Commitments

N5 Ballaghaderreen to Scramoge

N8/N25 Dunkettle Interchange

N69 Listowel Bypass

N59 Moycullen Bypass

N22 Ballyvourney to Macroom

N5 Westport to Turlough

#### Projects Proceeding to Construction

M28 Cork to Ringaskiddy

N21/69 Limerick to Foynes (Adare Bypass) - delivery of Adare Bypass as advance works for the main scheme

#### Projects Delayed by Judicial Review

N6 Galway City Ring Road

N52 Ardee Bypass

Projects Approaching Planning Approval

N2 Slane Bypass and Public Realm

Donegal TEN-T Improvement

## Bypasses

N3 Virginia Bypass

N4 Mullingar to Longford

N4 Carrick-on-Shannon to Dromod

N21 Newcastle West Relief Road

N21 Abbeyfeale Relief Road

N24 Cahir to Limerick Junction (including Tipperary Bypass)

N25 Midleton to Youghal

N58 Foxford Bypass

N72/N73 Mallow Relief Road

N17 Knock to Collooney - progress Tobercurry and Charlestown Bypass elements of scheme.

## Accessibility

N2 Clontibret to the Border

N11/25 Oilgate to Rosslare

N/M20 Cork to Limerick

## **1.4 Protection and Renewal**

### **1.4.1 Capital Protection and Renewal**

The Exchequer Grant for Capital Protection and Renewal has been increased in 2024 from €254 million in 2023 to €265.16 million in 2024. The section 24 letter highlighted that Safety is the priority for the Government and accordingly funding for Protection and Renewal of the National Roads network is to be prioritised. The grants provided reflect Government and TII commitment to the delivery of safety improvements on the National Network

### **1.4.2 Current Protection and Renewal**

The allocation for Current Spending in 2024 has been reduced by €2.0 million from €34.85 million to €32.85 million and consequently it has been necessary to introduce targeted reductions while recognising that inflationary pressures have further reduced the ability of individual Local Authorities to deliver the necessary services.

The allocations for General Operation and Maintenance have been left at 2023 levels resulting in it being necessary to reduce Winter Maintenance by € 1.0 million from €5,300,000 to €4,300,000 with a pro-rata reduction in each authority's allocation. TII will engage with Local Authorities during April 2024 to verify the emerging expenditure trend and implications for delivery of Winter Maintenance for the period October to December 2024.

In addition the amount for projects for which funds are allocated by means of the Geo-App has been reduced by €0.5 million from €5,000,863 to €4,500,863. TII will endeavour to allocate these reduced funds on an equitable basis across the entire network.

The balancing reduction of €0.5 million has been achieved by reducing expenditure on Bridge Maintenance which is procured directly by TII.

## 1.5 Key Points

Key points to note from this preamble are:

- The Exchequer allocations for national roads and greenways are confined by the funding voted by the Oireachtas and distributed by the Department of Transport (DoT).
- The funding provided to TII is for the purpose of fulfilling TII's statutory duties and delivering Government policy in connection with national roads and greenways.
- The allocations are an indication of the progress that TII believes is possible on each national roads or greenways project, programme, or operation during 2024, and subject to the terms and conditions specified by the Minister in relation to the Exchequer Capital Allocations. The allocations will be used to reimburse the relevant Local Authorities for costs incurred in accordance with national roads and greenways chargeability requirements.
- If the progression of any national roads or greenways project, programme or operation is impeded or priorities change, the funding will be redistributed by TII, in accordance with its statutory remit, to other national roads or greenways projects, programmes, or operations.

## 1.6 Allocation Terms and Conditions

- The drawdown of funding by the LA (Local Authority) on PRS will be taken as acceptance of these terms and conditions.
- The allocations are annual contributions towards the costs incurred by the LA in relation to the project for which the allocation is provided (each allocation is identified by a unique PRS Code).
- The LA may claim for expenditure up to the amount of the allocations assigned in PRS. Expenditure claims must meet the eligibility criteria set out in TII's guidance document "Chargeability of Expenditure to National Road and Greenways Grants" and should only be used for the purposes for which the allocation is provided by TII.
- The allocations provided by TII will only be available to the LA to claim during the period 22<sup>nd</sup> February, 2024, to the last pay run in December 2024.
- Any portion of the allocation which LA's will not be availing of or is not claimed via PRS in the period specified above may be withdrawn or reallocated by TII to another project within the LA or another LA.
- The funding is being made available for the improvement and maintenance of national roads and Greenways ('the projects') and may only be used for the specific project / purpose for which the grant is allocated. Where funding is availed of for national road projects, these

should be developed and implemented in accordance with TII guidelines, standards and procedures.

- In procuring services for the purposes of the project, the LA shall, where applicable, comply with Irish and European public procurement law and national public procurement guidelines.
- An appropriate audit trail shall be maintained between expenditure claimed on the PRS and the LA's financial management system. Expenditure charged to TII allocations must be clearly identifiable in the LA's accounting system (i.e., separate job codes set up for each PRS allocation) and supported by appropriate documentation.
- Where expenditure is claimed on PRS the LA should ensure that amounts claimed are not subject to any other claims for reimbursement from any other funding body (except in cases of joint-funding arrangements).
- Documentation to support expenditure claimed shall be retained in line with the LA's internal document retention policy and shall be made available for review by TII (when requested).
- Each claim submitted on PRS must be electronically certified by the Finance Officer (as designated in the PRS system for each LA).
- Circular 13/2014 "Management and Accountability for Grants from Exchequer Funds" issued by Department of Public Expenditure and Reform imposes certain obligations on grantees of Exchequer funding. It is a condition of TII funding that the requirements of Circular 13/2014 are fully complied with. In accordance with Circular 13/2014, grants received by grantees (i.e., local authorities) may be subject to audit by the bodies providing the funding. In this regard TII reserves the right to audit any project implemented by the local authority for which grants have been paid by TII.
- Should an audit be undertaken, and any expenditure be identified as ineligible, the LA shall refund TII the amount deemed to be ineligible.
- Should any project for which TII is providing grant funding be subject to a co-funding arrangement through the LA, the LA is required ensure that there will be no duplication of funding for the same activity / project.
- Should grants provided by TII be used by the LA to acquire assets, these shall not be disposed of without the prior written approval of TII.
- Should any errors (overclaims) be identified through audits / checking undertaken by the LA on claims made on PRS, the LA shall notify TII of the error identified and refund the amount if requested by TII.
